

LIVE SURGICAL DENTAL IMPLANT PROGRAM

2025
JAN

WED-SAT
29-01

Farshad Athari, DDS & Farid Ebrahim, DDS

TIJUANA, B.C., MEXICO

With the extensive use of LIVE PATIENTS and hands-on learning, the focus of the program is to teach dentists the surgical and prosthetic components of implant dentistry. Doctors will DX and learn about each specific case, placing up to 30 Implants.

In addition to learning the basics of implant dentistry, doctors will also learn about treatment plans and how to apply these plans to different situations. In order to better serve participants, we limit the course participation to 5 doctors and include all necessary materials and disposables.

Learning Objectives:

- Treatment planning
- Diagnosis (X-rays/Live visuals)
- Flap design & releasing of soft tissue
- Importance of soft tissue
- Understanding of the surgical kit
- Instrumentation
- What material to use at a given situation
- Implant placement
- Different bone augmentation situations
- Sinus augmentation
- Ridge expansion
- Suture design
